Professional Summary

"Highly motivated and detail-oriented AI Development fresher with a strong foundation in computer science, statistics, and machine learning. Proven ability to learn quickly and apply theoretical knowledge to develop high-quality, efficient, and effective AI systems. Demonstrated proficiency in various programming languages, including Python and Java, and experience with AI-related technologies such as TensorFlow and PyTorch. Seeking to leverage my technical skills and passion for AI to contribute to innovative and challenging projects in a dynamic organization."

Education

BTECH in Computer science and Engineering - Techno International Newtown

CGPA/Percentage: 8.50 | Year of Passing: 2023

Diploma Engineering in Computer science and Technology - Elite Polytechnic institute

CGPA/Percentage: 7.0 | Year of Passing: 2020

Skills

Python, LLM, Langchain, Azure, NLP, ML, DL, MYSQL.

Projects

ATS Friendly resume generator using LLM | LLM,Langchain,Streamlit,NLP.

This project involves developing a resume generator designed to create ATS-compliant (Applicant Tracking System) resumes using a large language model (LLM). The system allows users to input their personal details, experience, and skills, and generates a well-structured, keyword-optimized resume that increases the chances of passing through automated screening systems. The

generator offers customization options for different experience levels (fresher/experienced) and outputs resumes in PDF format. The focus is on ensuring that resumes are tailored for specific job applications, using appropriate formatting and language that aligns with industry standards.

Experience

AI Engineer at Digital Piloto

Duration: 19.06.2024-present

- AI Development

- Data Analyst

- Data Engineering.

Interests

learning new technology, gaming, Tracking.
